

Direxion Daily NYSE FANG+ Bull 2X Shares

Overview

The [Direxion Daily NYSE FANG+ Bull 2X Shares](#) seeks daily investment results, before fees and expenses, of 200% of the performance of the NYSE FANG+ Index. **There is no guarantee that the fund will achieve its stated investment objective.**

This leveraged ETF seeks a return that is 200% of the return of its benchmark index **for a single day. The fund should not be expected to provide two times the return of the benchmark's cumulative return for periods greater than a day.**

Target Index

The NYSE FANG+ Index (NYFANGT) is an equal-dollar weighted Index designed to track the performance of 10 highly-traded growth stocks of technology and tech-enabled companies. The Index is comprised of the securities of U.S.-listed companies that ICE Data Indices, LLC (the "Index Provider") has identified as FANG+ companies, which are comprised of the six FAANMG companies and four non-FAANMG companies. The Index Provider defines the FAANMG as Meta Platforms Inc. (META), Apple Inc. (AAPL), Amazon.com Inc. (AMZN), Netflix Inc. (NFLX), Microsoft Corp. (MSFT), and Alphabet Inc. Class A (GOOGL). The Index is reconstituted quarterly. **One cannot invest directly in an index.**

Investing in a Direxion Shares ETF may be more volatile than investing in broadly diversified funds. The use of leverage by a Fund increases the risk to the Fund. The Direxion Shares ETFs are not suitable for all investors and should be utilized only by sophisticated investors who understand leverage risk, consequences of seeking daily leveraged, or daily inverse leveraged, investment results and intend to actively monitor and manage their investment.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate. An investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. Returns for performance under one year are cumulative, not annualized. For the most recent month-end performance please visit the fund's website at www.direxion.com.

Short-term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes. For additional information, see the fund's prospectus.

Shares of the Direxion Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Market Price returns are based upon the midpoint of the bid/ask spread at 4:00 pm EST (when NAV is normally calculated) and do not represent the returns you would receive if you traded shares at other times. Brokerage commissions will reduce returns. Fund returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Some performance results reflect expense reimbursements or recoupments and fee waivers in effect during certain periods shown. Absent these reimbursements or recoupments and fee waivers, results would have been less favorable.

Direxion Shares Risks — An investment in the Fund involves risk, including the possible loss of principal. The Fund is non-diversified and include risks associated with the Fund's concentrating its investments in a particular industry, sector, or geography which can increase volatility. The use of derivatives such as futures contracts and swaps are subject to market risks that may cause their price to fluctuate over time. Risks of the Fund include Effects of Compounding and Market Volatility Risk, Leverage Risk, Market Risk, Counterparty Risk, Rebalancing Risk, Intra-Day Investment Risk, Daily Index Correlation Risk, Other Investment Companies (including ETFs) Risk, Cash Transaction Risk and Passive Investment and Index Performance Risk. The value of stocks of information technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation, and competition, both domestically and internationally, including competition from competitors with lower production costs. The communication services sector may be dominated by a small number of companies which may lead to additional volatility in the sector. Please see the summary and full prospectuses for a more complete description of these and other risks of the Fund.
